The Commercial Recording Arts department has been performing entire LP's by the Beatles for the last five years, often juxtaposed with other classic albums. In that fine tradition we're tweaking the recipe to include plenty of Beatles music, but in the framework of the live triple LP "Wings Over America" that hit #1 in the US in 1976. You'll hear 30 songs by Paul McCartney, Wings, the Moody Blues, and the Beatles in a re-enactment of the biggest and baddest rockshow of its time. If you missed Paul at the Forum in '76, or even if you didn't, you won't want to miss this!
